INFORMATION EXCHANGE COMMITTEE MEETING

FOR DECISION

SUBJECT: AEMO NEM ROLR PROCESSES PART B CHANGE PROPOSAL

AGENDA ITEM: 9

1. PURPOSE

The purpose of this paper is to seek a decision from the IEC on a Change Proposal submitted by AEMO.

2. SUMMARY

The purpose of this paper is to seek a decision from the IEC on a Change Proposal submitted by AEMO. AEMO recommends that this Change Proposal be developed into a B2B Procedures Change Pack for consultation in Q3 2020.

The proposed changes are focused on delivering the National Electricity Amendment (Global Settlement and Market Reconciliation) Rule 2018 No 14. AEMO proposes that references to Local Retailer (LR) are changed to Embedded Network Local Retailer (ENLR) in the NEM RoLR Processes Part B – B2B Procedures to reflect that LRs will only exist within embedded networks following the commencement of Global Settlement.

Given that the Issue Change Form (ICF) provides clarifications to the procedures, it is not envisaged that there will be any AEMO IT system changes required.

3. RECOMMENDATIONS

AEMO recommends that the IEC:

- Accept the change proposal (ICF) as proposed (Attachment 1).
- Request that AEMO:
    a. Provide advice on whether there is a conflict with the MSATS Procedures which would arise if the ICF were implemented.
    b. Advise whether changes are required to the B2B e-Hub in order to deliver the ICF and, if so, the likely costs and timelines for making the changes.
- Require the B2B Working Group (B2B-WG) develop these ICF into a B2B Procedure Change Pack, including the requested advice from AEMO in accordance with section 7.17.4(i) of the National Electricity Rules (NER).
- Require the B2B-WG to provide the completed B2B Procedure Change Pack for the IECs consideration on, or prior to, the August 2020 IEC meeting.
