Dear David;

Re: Submission to include the ASTRO 187W LED luminaires in the National Electricity Market Load Table.

Gerard Lighting request that the ASTRO 187W LED luminaires are given approval for inclusion to the National Electricity Market Load Tables for Unmetered Loads.

The product is suitable AS/NZS1158.4 applications. The ASTRO 1787 LED FLOOD 187W ASYM luminaire consists of 1 module with total of 24 LEDs and the LED driver has a total power consumption of 202.34 Watts. It is suitable for Pedestrian Crossing (PX1, PX2, PX3) lighting applications.

The Astro series is high performance luminaire specifically designed for flood and road lighting requirements. The product has internal identification label and external marking as per SA/SNZ TS 1158.6.

Note: Tested with LED module and LED driver only, excluding any other control device such as a Photocontrol switch.

Our submission is supported with the following documents.

- 1) Supporting Letter for the installation
- 2) Product data sheet
- 3) NATA Laboratory Test Report 180320LCP

We trust this submission meets with your approval requirements. However, should there be any queries or if you require any further information, please don't hesitate to contact me.

Yours Sincerely,

Jonas Olander
Senior Category Manager Roadway & Infrastructure
