Dear David,

**Re: Submission to include the DarkLicht DL-60 Luminaire in the National Electricity Market Load Tables for Unmetered Connection Points.**

We request that approval be given for the inclusion of the DarkLicht DL-60 LED to the NEM Load Table. Requested wattage is 62w.

The following documentation is presented in support of our submission;

1. Letter of Market support from the City of Adelaide.
2. Specification Sheets and Performance Specifications.
3. Test Report; AU23FZ5Q 001 – Power Consumption measurement at rated voltage along with the Pecan Lighting Data Logs for additional data.

We thank you for your consideration in including the DarkLicht DL-60 luminaire on the NEM Load tables.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Terry Cook', is written in a cursive style.

Terry Cook – General Manager
