Project update

- Industry training sessions conducted in May, approx. 150 people attended the training
- Training slides and video of session have been made available
- Market trial is currently underway in pre-production environment
- Trial is focused on using the auction to place bids as well as understand the CC transfer process
- It is highly recommended all participants who intend to participate in the auction participate in the trial
- It is not too late to participate in the trial, but it soon will be trial ends 24 June
