METERING DATA PROVISION PROCEDURES CONSULTATION PAPER AND STRAWMAN PROCEDURES – PARTICIPANT RESPONSE PACK

METER DATA PROVISION PROCEDURES PACKAGE

Participant: ActewAGL Distribution

Completion Date: 2 June 2015

Table of Contents

1. RESPONSES TO QUESTIONS IN THE CONSULTATION PAPER	3
2. STRAWMAN PROCEDURES	3

1. Responses to Consultation Paper Questions

Item	Question	Participant Comments
1	The Procedures presents the minimum summary and detailed data formats. Please comment on the proposed formats and examples in Section 2.	
2	For large retail customers, please provide your view on including demand in the diagrammatic representation for the interval metering data summary format.	AAD doesn't believe that there will be an issue in including demand in the report for a large retail customer.
3	What would be a reasonable maximum timeframe to specify for retailers and DNSPs to respond to requests from customer authorised representatives?	AAD believes that 10 business days for a single customer request is appropriate.
4	Should a sliding scale be used for delivery timeframes for requests from customer authorised representatives?	AAD believes a sliding scale is appropriate, as long as the defined methodology is able to be reviewed and commented on.
5	Is there a need to define what constitutes a customer request (for example, by phone, in writing)?	This should be defined for alleviate ambiguity. A customer request should be in writing.
6	The Procedures presents the minimum requirement for the detailed data format. Please comment on these in Section 2.	

2. Strawman Procedures

Item	Description	Participant Comments
1	INTRODUCTION	
1.1	Purpose and scope	No comment at this stage
1.2	Definitions and interpretation	No comment at this stage
1.3	Related AEMO procedures	No comment at this stage

Meter Data Provision Procedures Package

Item	Description	Participant Comments
2	OBJECTIVE	No comment at this stage
3	DATA FORMATS	No comment at this stage
3.1	General National Energy Retail Rules requirements	No comment at this stage
3.2	Field details – format and unit of measure	No comment at this stage
3.3	Summary data format	No comment at this stage
3.4	Detailed data format	No comment at this stage
4	DELIVERY TIMEFRAMES	As above
5	DELIVERY METHOD	No comment at this stage
5.1	Summary data format	No comment at this stage
5.2	Detailed data format	No comment at this stage
Appendix A	ACCUMULATION METERING DATA SUMMARY FORMAT	No comment at this stage
A.1	File conditions	
A.2	Example: accumulation file	
A.3	Example: diagrammatic representation of energy usage	
Appendix B	INTERVAL METERING DATA SUMMARY FORMAT	No comment at this stage
B.1	File conditions	
B.2	Example: interval file	
B.3	Example: diagrammatic representation of energy usage	
Appendix C	INTERVAL METERING DATA SUMMARY FORMAT	No comment at this stage
C.1	File conditions	
C.2	Example: 30-minute interval file
