

21 July 2015

Mr Matt Zema
Australian Energy Market Operator,
GPO Box 2008,
Melbourne Victoria 3000

Dear Mr Zema,

The NSW DNSPs Response to the *Metering Data Provision Procedures Draft Report & Determination paper*

The NSW Distribution Network Service Providers, Ausgrid, Endeavour Energy and Essential Energy (the NSW DNSPs) welcome the opportunity to provide this joint submission in response to the *Metering Data Provision Procedures Draft Report & Determination paper*.

We recognise the amount of work and industry consultation that has been undertaken by AEMO in moving from the 'strawman' procedure to the draft procedure. The NSW DNSPs welcome the inclusion of NEM12 as a standard data provision format in the procedure, and also the increased clarity regarding identification issues.

We still hold a number of residual concerns, to which we have provided detailed comments (Attachment A) on aspects of the draft procedure provided for consultation by AEMO. In summary, our remaining concerns with the current drafting are:

- Data delivery time frames,
- Several definitional issues.

If you have any further queries or would like to arrange a meeting to discuss our submission please contact Mr Murray Chandler, Group Manager Network Technology & Innovation at Networks NSW on (02) 9269 7210 or murray.chandler@ausgrid.com.au

Yours sincerely,

John Hardwick
Group Executive Network Strategy
Ausgrid, Endeavour Energy and Essential Energy
