# 1. Background

AEMO utilises a central system called Market Settlement and Transfer Solution (MSATS) to manage consumer transfers. MSATS also administers notifications of transactions to market participants and retains the data needed to facilitate wholesale settlement. The MSATS Procedures have been in operation since 1 January 2002 and have been revised a number of times to support ongoing business improvements.

The recommended process improvements under consultation will become MSATS Procedures:

- Consumer Administration and Transfer Solution (CATS) Procedure Principles and Obligations Version 4.1,
- Procedure for the Management of Wholesale, Interconnector, Generator and Sample (WIGS) NMI's Version 4.1.

## Scope of Changes

The proposed changes under consultation relate to:

- **016 MSATS Updates to reflect NMI Standing Data access Rule**

The AEMC released its Rule determination on the Access to NMI Standing Data Rule change on 31 October 2013. The change was regarding retailers' (and their authorised service providers) access to NMI Standing Data. The Rule allows the disclosure or provision of means to gain electronic access to a Customer or the Customer's Disclosees.

Under this Rule, AEMO is required to complete the necessary changes to the MSATS Procedures within 12 months of the commencement of the Rule Change (31 October 2014). The AEMC has also stated that AEMO is not required to comply with the Rules consultation procedures. However, AEMO must begin a consultation within 10 months after Commencement date (31 August 2014) and must invite submissions on the changes to the procedures for a period of not less than 14 days.

AEMO proposes a change to part 44 of the CATS Procedures to improve the clarity and reflect the intent of the Rule change.

This document lists the proposed changes to the CATS Procedure, WIGS Procedure and associated MSATS configuration rules (if any). The proposed changes under consultation have a proposed effective date of 1 July 2014.

## 2. Purpose of this document

This document proposes changes to the MSATS Procedures. The current procedures as of 13 November 2013 are documented in the ***MSATS Procedures: CATS Procedure Version 4.0*** and ***WIGS Procedure Version 4.0*** and are available on AEMO's website.

Participants are requested to review the item/s under consultation and provide any comments in accordance with the National Electricity Rules consultation process, reflected in the Notice of Consultation issued by AEMO.

### 3. The Consultation Process

The process and date plan for the changes proposed in this document is as follows:

Action	Start Date	End Date	Notes
