Guidance for participants

AEMO published its final decision to amend the STTM interface protocol on 27 July 2011. A copy of the final determination can be found on the AEMO website at http://www.aemo.com.au/STTM/sttmrules.html

The amendments to the STTM Interface Protocol will become effective prior to the commencement of the Brisbane hub to allow participants at the Brisbane hub to comply with their obligations under Part 20 of the National Gas Rules.

Participants will observe changes to the publication times of a number of reports in accordance with version 11 of the STTM Report Specification. A summary of the changes to report publication times is set out in Table 2 below.

Table 2: Summary of report publication times

Type of report trigger for publication	Market Information Report	Guidance
Time - New publication time for the Brisbane hub	INT653, INT656, INT658, INT664, INT683, INT703, INT704, INT704v2	*From the effective date of version 4 of the SIP there will be additional times that these reports are produced for all hubs.*
Time - No change	INT720, INT720A, INT720B, INT722, INT723, INT721, INT721A, INT733, INT659, INT660, INT661, INT662, INT663, INT665, INT667, INT670, INT671, INT672, INT673, INT676, INT677, INT678, INT680, INT681, INT687, INT705, INT706, INT707, INT709, INT713, INT718	*No change to the publication time of these reports.*
Event	INT651, INT652, INT654, INT655, INT657, INT666, INT668, INT669, INT674, INT675, INT679, INT682, INT684, INT688, INT689, INT701, INT702, INT708, INT710, INT711, INT712, INT714, INT715, INT716, INT724	*Trigger events related to the Brisbane hub will result in the publication of these reports prior to the commencement of the Brisbane hub.* *Event triggers include the approval of schedules and the submission of bids and offers.*
New reports	INT733, INT734	*New STTM reports will be published from the effective date of version 4 of the SIP. All new reports are relevant to the Brisbane hub participants only.*

MIS reports will include data for the Brisbane hub subject to the data being progressively established in the live production systems from Monday 17 October.
