Capacity certificates quantity for the 3rd capacity certificates auction is also published via int 343 – CC Auction Quantity on the MIBB and at <http://nemweb.com.au/Reports/Current/VicGas/>.

The Western Outer Ring Main (WORM) project was expected to be completed by winter 2023, however unanticipated construction challenges have resulted in delays. APA have advised that these delays may extend into the first half of 2024. As a result, AEMO has adjusted its outlook for monthly transmission capacity so that the WORM capacity becomes available from July 2024. This does not reflect the actual anticipated project commissioning timeline. AEMO has completed additional system capability modelling for this period to reflect a number of changes that have had a material impact on previously published pipeline capacity numbers, specifically for the Southwest Entry and Southwest Exit zones. This was done in accordance with section 7 of the DWGM Capacity Certificates Auction and Transfer Procedures.

This change and the updated system capability modelling has impacted the quantity of capacity certificates available in the November 2023 auction, due to capacity at previous auctions being released in-line with the winter 2023 timeline for completion of the WORM.
