

The deferred dates are set out in the 2025 Reserve Capacity Cycle timetable below.

For Reserve Capacity to be provided for the 2027-28 Capacity Year¹.

| Current Date | Deferred Date | Time | ESM Rule ² | Action |
|------------------------------|-----------------------|--------|-------------------------------|---|
| Wednesday 31 January 2025 | <i>Not applicable</i> | 5:00pm | 4.1.4 4.1.19 | AEMO publishes the Request for Expressions of Interest (REOI). <ul style="list-style-type: none"> The REOI publication includes the Economic Regulation Authority's determination of the Peak Benchmark Reserve Capacity Price and Flexible Benchmark Reserve Capacity Price. |
| Tuesday 4 March 2025 | <i>Not applicable</i> | 5:00pm | 4.1.5 | Expression of Interest (EOI) submissions close. |
| Tuesday 1 April 2025 | <i>Not applicable</i> | 5:00pm | 4.1.6 | AEMO publishes a summary of responses to the REOI. |
| Monday 14 April 2025 | <i>Not applicable</i> | 9:00am | 4.1.7 | Opening date for Peak Certified Reserve Capacity (CRC) and Flexible CRC applications. |
| | | 9:00am | 4.8A.1 | For proponents who submitted an EOI for a new Facility or Facility Upgrade, AEMO must: <ol style="list-style-type: none"> Assign an indicative Facility Class and one or more indicative Facility Technology Types. Notify the proponent of the assigned indicative Facility Class and indicative Facility Technology Types. |
| Thursday 8 May 2025 | <i>Not applicable</i> | 5:00pm | 4.4B.2 | AEMO provides information to Western Power regarding: <ol style="list-style-type: none"> EOIs. Facility retirements. Early CRC applications, and whether any Facility has nominated to be classified as a Network Augmentation Funding Facility. NCESS Contracts. Preliminary peak demand forecasts for the 2027-28 Capacity Year. |
| Monday 19 May 2025 | <i>Not applicable</i> | 5:00pm | 4.8A.4(b) | Closing date for indicative Facility Class and indicative Facility Technology Type(s) assessment submissions from proponents for Facilities seeking CRC that did not submit an EOI. |
| Tuesday 24 June 2025 | <i>Not applicable</i> | 5:00pm | 4.1.8 | AEMO publishes the 2025 Wholesale Electricity Market (WEM) Electricity Statement of Opportunities (ESOO) that includes: <ul style="list-style-type: none"> Mid Peak Electric Storage Resource Obligation Interval, ESR Duration Requirement, Electric Storage Resource Obligation Duration and (Peak and Flexible) Electric Storage Resource Obligation Intervals. |

¹ A Capacity Year commences in the Trading Interval starting at 8:00 AM on 1 October and ends in the Trading Interval ending at 8:00 AM on 1 October of the following calendar year.

² The Electricity System and Market (ESM) Rules. See: <https://www.wa.gov.au/government/document-collections/electricity-system-and-market-rules>.

Current and Deferred 2025 Reserve Capacity Cycle timetable

| Current Date | Deferred Date | Time | ESM Rule ² | Action |
|----------------------------|-----------------------------|--------|--------------------------------|---|
| | | | | <ul style="list-style-type: none"> Peak Demand Side Programme Dispatch Requirement. Peak Reserve Capacity Requirement and Flexible Reserve Capacity Requirement. |
| Tuesday 24 June 2025 | <i>Not applicable</i> | 5:00pm | 4.1.10 | AEMO publishes the Reserve Capacity Information Pack. |
| Thursday 26 June 2025 | <i>Not applicable</i> | 5:00pm | 4.4B.5 | <p>Western Power must provide the following information to AEMO:</p> <ol style="list-style-type: none"> Estimated proportion of peak demand at each Electrical Location on its Network. Preliminary estimate of Thermal Network Limits. Electrical Location and identity of new loads or increase of existing loads equal to or greater than 10 MW. RCM Limit Advice. An explanation of any changes from previous RCM Limit Advice. |
| Thursday 3 July 2025 | <i>Not applicable</i> | 5:00pm | 4.4B.6 | AEMO publishes the information provided by Western Power under ESM Rules 4.4B.5 . |
| Tuesday 8 July 2025 | <i>Not applicable</i> | 5:00pm | 4.1.11 | Closing date for Peak CRC and Flexible CRC applications. |
| Tuesday 15 July 2025 | <i>Not applicable</i> | 5:00pm | 4.4B.7 | <p>AEMO provides information to Western Power regarding:</p> <ol style="list-style-type: none"> CRC applications. Facility retirements. Early CRC applications, and whether the Facility has nominated to be classified as a Network Augmentation Funding Facility. NCESS Contracts. Peak demand forecasts for the 2027-28 Capacity Year (from 2025 WEM ES00). |
| Tuesday 12 August 2025 | <i>Not applicable</i> | 5:00pm | 4.4B.9 | <p>Western Power provides information to AEMO regarding:</p> <ol style="list-style-type: none"> Estimated proportion of peak demand at each Electrical Location on its Network. Estimate of Thermal Network Limits. Electrical Location and identity of new loads or increase of existing loads equal to or greater than 10 MW. RCM Limit Advice. An explanation of any changes from previous RCM Limit Advice. Transmission Nodes and respective Transmission Node Identifiers for all Transmission Nodes that are expected to be in service on 1 October of Year 3 of the Reserve Capacity Cycle. |
| Tuesday 26 August 2025 | <i>Not applicable</i> | 5:00pm | 4.1.12 | AEMO notifies each applicant of the Peak CRC and Flexible CRC to be assigned to each Facility. |
| | | | 4.1.13 | If required, Market Participants must provide Reserve Capacity Security (RCS) or Demand Side Programme (DSP) RCS for Peak CRC. |
| Monday 8 September 2025 | Monday 15 September 2025 | 5:00pm | 4.1.14 4.14.1 | Market Participants holding Peak CRC and Flexible CRC must specify to AEMO the amount they will trade bilaterally, and the amount not to be made available to the market. |
| | | | 4.14.1B | Market Participants may nominate that a Facility be classified as a Fixed Price Facility, or a Facility Technology Type within that Facility be classified as a Fixed Price Component. |

Current and Deferred 2025 Reserve Capacity Cycle timetable

| Current Date | Deferred Date | Time | ESM Rule ² | Action |
|--------------------------------|--------------------------------|--------|-----------------------|---|
| Tuesday 9 September 2025 | Tuesday 16 September 2025 | 5:00pm | 4.1.15 | AEMO confirms the quantity of Peak CRC and Flexible CRC that can be traded bilaterally from each Facility. |
| Wednesday 10 September 2025 | Wednesday 17 September 2025 | 5:00pm | 4.1.15A | AEMO publishes the level of Peak CRC and Flexible CRC assigned to each Facility. |
| Tuesday 14 October 2025 | Tuesday 21 October 2025 | 5:00pm | 4.1.16A | <p>AEMO:</p> <ol style="list-style-type: none"> a. Assigns Peak Capacity Credits and Flexible Capacity Credits. b. Publish the required information pursuant to clause 4.20.5A(b) including: <ol style="list-style-type: none"> i. For each Facility: <ul style="list-style-type: none"> ▪ The assigned Capacity Credits (CC) assigned. ▪ The Facility class. ii. The Peak Capacity Price and Flexible Capacity Price. iii. If it is a Transitional Reserve Capacity Cycle: <ul style="list-style-type: none"> ▪ The Facility Monthly Reserve Capacity Prices as determined under clause 4.29.1B multiplied by 12. ▪ Each Facility Monthly Reserve Capacity Price as determined under clause 4.29.1D multiplied by 12. c. Notifies each Market Participant of the Network Access Quantity (NAQ) determined for each of its Facilities. d. Publishes the NAQ Model Inputs, the NAQ or Indicative NAQ determined for each Facility assessed in the NAQ Model and the Highest NAQ for each Facility. |
| Wednesday 15 October 2025 | Wednesday 22 October 2025 | 5:00pm | 4.1.21 | Market Participants may apply for a recalculation of the amount of RCS or DSP RCS required to be held for a Facility (applications may only be made after this date/time). |
| Thursday 13 November 2025 | Thursday 20 November 2025 | 5:00pm | 4.1.21A | Market Participants must notify AEMO of the number of Capacity Credits that are to be associated with each component of a Facility, where applicable, in accordance with clause 4.20.16 (applicable to Facilities who have been assigned less Capacity Credits than their CRC). |
| | | | 4.1.22 | AEMO sets and publishes the number of Peak Capacity Credits and Flexible Capacity Credits associated with each component of a Facility. |
| Thursday 20 November 2025 | Thursday 27 November 2025 | 5:00pm | 4.20.5AA | <p>AEMO publishes the Reserve Capacity Prices and the aggregate quantity of MW of Capacity Credits assigned at each price:</p> <ol style="list-style-type: none"> a. The Peak Reserve Capacity Price. b. The Reserve Capacity Price for each Transitional Facility or Transitional Component. c. The Reserve Capacity Price for each Fixed Price Facility or Fixed Price Component. |
