

Intent to deregister Anglo Coal from the National Gas Market Bulletin Board

The Australian Market Operator (AEMO), as the National Gas Market Bulletin Board (BB) Operator is hereby providing notice that it intends to deregister Anglo Coal (Dawson Management) Pty Ltd ('Anglo Coal') (ABN 15 006 746 701, ID 90) from the National Gas Market Bulletin Board, effective 11 February 2014.

On 8 January 2014 AEMO received notice from Anglo Coal indicating that they intend to de-register from the National Gas Market Bulletin Board as a production facility operator for the Dawson Valley Facility. This is in accordance with National Gas Rules Part 18, sub rule 147 (4). Anglo Coal has advised that this facility was sold to Westside Corporation Limited in 2010.

Based on this information, AEMO considers that Anglo Coal has ceased to be a BB participant. In accordance with sub rule 148(8) of the National Gas Rules, AEMO proposes to remove Anglo Coal as a production facility operator from the BB participant list, with effect from 11 February 2014.

On deregistration, Anglo Coal will no longer be displayed on the Bulletin Board and will not be required to provide any operational data. All historical data will however remain and will include Anglo Coal up until the day prior to the effective date.

If in future Anglo Coal again becomes a production facility operator, it must apply to AEMO for registration under Part 18 of the National Gas Rules before that change occurs.
