

Notice to all BB interested parties,

21 July 2014

Exemption of BB Production Facility – Dawson Valley

The Bulletin Board Operator (BBO) under the National Gas Rules (the Rules) has exempted Westside Corporation, the Operator of the Dawson Valley BB Production Facility, from providing daily data (3-day capacity outlook and actual production data) to the BBO in relation to the facility, effective 1 July 2014.

AEMO received notification from Westside Corporation on 10 June 2014 that the nameplate rating of the facility is less than 20TJ of Natural gas per day and accordingly the facility meets the criteria in sub rule 151(7)(b) of the Rules.

- The nameplate rating of the BB production facility is, or (in the case of a proposed BB production facility) will be, less than 20TJ of natural gas per gas day.

Bulletin Board Operator.

NOTE: This is the sole BB Production Facility in the Roma production zone operated by Westside Corporation and as it has an aggregated capacity of less than 20TJ of natural gas per gas day, rule 151(5) does not apply.
