1. The drop in monthly new delivery points in VIC from Jun-24 is due to a distributor updating their meter supply point count methodology which now aligns with other distributors (clause 2.9.7 of VIC RMP). The count is made up of all gas sites that are either commissioned or decommissioned with a physical meter installed. The mentioned distributor previously provided this count regardless of whether a physical meter was installed (decommissioned MIRNs without physical meters were included in the count), resulting in a larger proportion of gas sites.
