\* Stack 1 - Users in the positive and negative CI columns are ranked in descending order of magnitude (largest to smallest CI volume). Users in the zero CI column are listed in alphabetical order.

\*\* Stack 2 - Users in the positive and negative CI columns are ranked in descending order of magnitude (largest to smallest CI percentage). Users in the zero CI column are listed in alphabetical order.

**Notes:**

- 28 October 2010 - Note that with the end of the No Operational Balancing Arrangement in NSW-Wilton network section, CIs are no longer accumulating under that previous balancing regime.
  - Publication of the User Cumulative Imbalance (CI) Stacks is not a requirement under the Retail Market Procedures (NSW and ACT) ('Procedures'), but an initiative of the Gas Retail Consultative Forum (GRCF) for the purpose of assisting users manage their Cumulative Imbalance positions. Users have agreed to the publication of users' identities in the User CI Stacks. However, each user reserves the right to 'opt out' of having their identity published in the User CI Stacks at any time by contacting AEMO.
  - Users' rankings in the User CI Stacks are based on the most current end-of-month Cumulative Imbalance data that is available. However, as this final data is published with an approximate 1-month lag, a user's actual Cumulative Imbalance position may have changed since such time. As a result, a user's ranking in the User CI Stacks may not be representative of their current Cumulative Imbalance position.
  - Under the Procedures, a User must use its reasonable endeavours to maintain a cumulative imbalance within prescribed limits, as defined under clause 8.8.6(b). If a User's Cumulative Imbalance at the end of a month exceeds these prescribed limits, the User may be required to increase, limit or suspend deliveries of gas into, or withdrawals of gas from, the network section so as to return the User's Cumulative Imbalance to within the prescribed limits.
  - Please refer to the HUB ID table for the participant IDs used in the User CI Stacks.
- No Warranty – While AEMO has used due care and skill in the production of this Register, neither AEMO, nor any of its employees, agents and consultants make any representation or warranty as to the accuracy, reliability, completeness or suitability for particular purposes of the information in this Register.
  - Limitation of liability - To the extent permitted by law, AEMO and its advisers, consultants and other contributors to this Register (or their respective associated companies, businesses, partners, directors, officers or employees) shall not be liable for any errors, omissions, defects or misrepresentations in the information contained in this Register, or for any loss or damage suffered by persons who use or rely on such information (including by reason of negligence, negligent misstatement or otherwise). If any law prohibits the exclusion of such liability, AEMO's liability is limited, at AEMO's option, to the re-supply of the information, provided that this limitation is permitted by law and is fair and reasonable.
