Dear Wendy

Re: SEA Gas MOS allocation service costs for the year ending 30 June 2026 (MOS Costs)

As you know the introduction of the Short-Term Trading Market (STTM) has increased pipeline obligations for reporting of data. SEA Gas has made several changes to accommodate these requirements and has made no other recovery of the Market Operator Service (MOS) Costs listed below.

SEA Gas can identify some costs directly related to MOS Allocations. These costs have been allocated 100% to MOS Costs. For other costs indirectly related to MOS Allocation requirements SEA Gas has made an allocation proportional of MOS Allocation files to the total number of files submitted for the STTM. During the last financial year SEA Gas submitted 4,831 STTM files. 2,231 (46%) of those files were MOS Allocation files. Therefore, SEA Gas has allocated 46% of the indirect costs to MOS Costs.

SEA Gas had forecast estimated MOS Costs for the financial year ending 30 June 2026 (FY26) at $27,500. With completion of FY26, MOS Costs incurred have been determined as $38,745. We note that ongoing connection issues preventing regular automated submissions have required increased internal and external support and accounts for the increase in both categories above what we have previously experienced.

Consistent with last year's account please be advised that the invoice for SEA Gas' FY26 MOS Costs includes the following:

1. External Service Provider costs
    a. Previously, SEA Gas instigated after hours support from its IT service provider to assist with Short Term Trading Market (STTM) compliance. For FY26, $4,474 has been allocated to MOS Costs representing 46% of the cost incurred attributable to the STTM.
    b. For FY26 the External Service Provider was required to perform business hours support on STTM related matters. The work performed includes indirect MOS

costs. 46% of these costs were charged to MOS Costs. Therefore, the MOS Cost share of this work is $6,772.

2. Internal Labour costs
   a. From SEA Gas system logs, effort was required to manage shipper CRN expiry issues, invalid MOS stack submissions, failed data submissions, internal training, and deal with other specific MOS matters. The costs attributable include direct and indirect MOS costs (46% of the indirect costs were charged to MOS Costs). The allocation to MOS Costs is $15,175.
   b. SEA Gas notes the on-going monitoring required of STTM and MOS Allocation data. Consistent with the previous year SEA Gas estimates that the day to management of MOS obligations outside of the specific matters listed above costs $12,324 (for 52 hours per annum).
3. On this occasion, we have chosen not to add an interest cost for the time differential between when costs are incurred and the expected time of recovery.

SEA Gas' MOS Costs are summarised as follows.

Source	Description	Cost
External Service Provider	After Hours Support	$4,474
	Business Hours Support	$6,772
Internal Labour Costs	Internal Analysis	$15,175
	On-going monitoring	$12,324
Total		**$38,745**

If you have any questions on this matter, please contact Jamie Coombs (Senior Commercial Operations Advisor) at jamie.coombs@seagas.com.au.

Yours sincerely

Jamie Coombs
