

Announcement

# NEM Reform

October 2023

---

We are pleased to share some important updates for the NEM Reform Program.

## NEM Reform Implementation Roadmap

This week, AEMO in collaboration with the Reform Delivery Committee (RDC), has released Version 3 of the NEM Reform Implementation Roadmap ('the Roadmap'). The Roadmap provides a holistic view of the NEM Reform Program's impact on the National Electricity Market (NEM) and Australia's East Coast Gas Markets.

Version 3 reflects incremental and material changes such as scope updates to the Improving security frameworks for the energy transition (formerly Operational Security Mechanism), Operating Reserve Market, Enhanced Information and Data Services initiatives. These changes were worked through in accordance with a formal process agreed with the RDC.

The Roadmap and supporting materials are available in full on [AEMO's website](#).

In addition, stakeholders can access the materials from Reform Delivery Committee meetings on the [Committee's webpage](#).

## Stay informed - Public Briefing

On 25 October 2023, AEMO is welcoming all stakeholders to a briefing on the NEM Reform Program and the Roadmap. Please register your interest to attend [here](#) by Friday 20 October 2023.

Regards,

NEM Reform Program Team
