Subject: RE: PPC - STTM Reports Consultation

Dear GWCF,

AGL has considered the proposed procedure change (PPC) to amend the STTM Procedures and the STTM Reports Specification in the interests of reporting efficiency and only has one comment regarding the amendment to Procedures section 3.4 Ex Ante Pipeline data. Namely that AGL would prefer that the report is published at 9am and again at 10:30am as data is already submitted to facility operators by 9am.

Kind regards,
Marika

Subject: PPC - STTM Reports Consultation

Dear GWCF,

AEMO has published on its website a proposed procedure change (PPC) to amend the STTM Procedures and the STTM Reports Specification in the interests of reporting efficiency. AEMO does not believe there will be any system impacts from the proposed changes. Please follow the link below to access the PPC and associated documents.

<https://aemo.com.au/consultations/current-and-closed-consultations/sttm-reports>

The proponent for this PPC is AEMO.

Invitation to respond to this PPC

Submissions should be sent to gwcf_correspondence@aemo.com.au by **COB 9 November 2020**.

Next Steps

Following the close of submissions for the PPC, AEMO will issue an impact and implementation report (IIR) for this consultation. The IIR, as outlined by clause 135EC of the NGR, will contain:

- i. a critical examination of a proposal for the making of Procedures; and
- ii. an assessment of the likely effect of the proposed Procedures; and
- iii. a recommendation on whether the Procedures should be made.

Depending on the nature of the feedback provided in the responses, AEMO will seek to release the IIR to GWCF participants on 30 November 2020. Participants will be able to make submissions in response to the IIR.

If you have any questions, please contact gwcf_correspondence@aemo.com.au.

Kind regards,
Arjun
