

16 September 2022.

Notice to all Registered Participants under the National Gas Rules (NGR).

This Notice is to advise Participants on AEMO's decision to approve amendments to the:

- Gas Interface Protocol Victorian
 - Participant Build Pack 1 - Table of Transactions
 - Participant Build Pack 1 - CSV Data Format Specifications
 - Participant Build Pack 3 - B2B System Interface Definitions
- Gas Interface Protocol Queensland
- Gas Interface Protocol NSW/ACT
 - Participant Build pack 5 - NSW-ACT
 - Participant Build pack 6 - NSW Wagga Wagga and Tamworth (WWT)
- Specification Pack Usage Guide
 - B2B Service Order Specification Part 1
 - B2B Service Order Specification Part 2
 - SA/WA Interface Control Document (ICD)
- Retail Market Procedure (SA)

This Notice advises Gas Market Registered Participants that consultation under the ordinary Procedure Change Consultative Process prescribed under Rule 135EE of the NGR concluded on 13 September 2022 for:

- IN009/21 (Several minor documentation changes to the east coast Technical Protocol (TP)).

As required under Rule 135EE of the NGR, Gas Market Registered Participants and other interested parties were invited to submit comments to AEMO on the Impact and Implementation Report (IIR) for this proposal. AEMO received one submission and that participant advised that they mostly agree with the changes as described in the IIR but suggested further minor updates, which AEMO did not support.

Attachment B of this Notice sets out the consolidated feedback relating to the proposed amendments that AEMO received during this consultation phase. This attachment includes stakeholder comments, AEMO responses and, based on those responses, an indication where respondent feedback resulted in further amendments to the documents mentioned above.

Having considered the feedback provided, AEMO has approved the proposed amendments (Attachment A) of this Notice and has set the effective date for the changes to be 10 October 2022.

Updated versions of the documents mentioned in Attachment A will be published on the AEMO website prior to the effective date.

Should you require any further information please contact Danny McGowan on (03) 9609 8447.

ATTACHMENT A
Proposed changes: Technical Protocols –
~~Red~~ ~~strikeout~~ means delete and
blue underline means insert

Click [here](#) to view¹ the final version of the Technical Protocols showing tracked changes between the current version and the proposed changes.

¹ Please refer to the section titled IIR Consultation documents. These tracked changed documents are contained in the pdf file called “Attachment B – IN009-21 Bundled minor TP changes (IIR Version)”. There were no further changes made as result of the IIR consultation, therefore the changes that were described in the IIR represent the version approved for the purpose on this notice.

ATTACHMENT B
Consolidated feedback received during the Impact and Implementation Report (IIR) stage.

Topic	Ref#	Participant	Please Provide Response Here	AEMO response
<p>Sections 1 to 8 of the IIR sets out details of the proposal.</p> <p>Does your organisation support AEMO's assessment of the proposal?</p> <p>If no, please specify areas in which your organisation disputes AEMO's assessment (include IIR section reference number) of the proposal and include information that supports your organisation's rationale why you do not support AEMO's assessment.</p>	1	Multinet Gas Networks (MGN)	In relation to IN009-21, for the most part I agree but there are other updates required that have not been added, please see my comments below.	AEMO notes that MGN mostly agrees with the proposed changes.

<p>Section 9 and 10 of the IIR set out AEMO's recommendation and timeframes. Does your organisation supports AEMO position to recommend the procedures changes and the timeline for those procedures change to take effective?</p>
