Intellihub			N/A

5. Meter Data Process

Participant Name	Old Clause No	New Clause No	Comments
Intellihub			N/A

6. One Way Notification Process

Participant Name	Old Clause No	New Clause No	Comments
Intellihub	4.1.3	4.2.3	<p>Existing fields NOTBEFORE and NOTAFTER in the MXN are used to inform retailers of installation occurring on a date range as opposed to on a specific date. There is no provision in the MFIN to make the retailer aware of the agreement with the customer.</p> <p>There should be a consideration for adding the above fields to the MFIN to maintain a consistent approach. Alternatively there should be clarity for where the MC obtains explicit consent from the customer to attend on date range and that information to be provided in the StartDate and EndDate, therefore it is assumed that where StartDate is same as EndDate installation will be done on specific date.</p>
	4.1.3	4.2.3	<p>Please indicate which field in the MFIN will be used to provide visibility to retailers that explicit consent has been obtained from the customer on the specific date or date range and an outage notification has been provided as per the rules.</p> <p>This information is currently being shared via spreadsheets/emails or the NOTICEDATE which is now no longer.</p>

7. Technical Delivery Specification

Participant Name	Old Clause No	New Clause No	Comments
