1. One Way Notification Process – PIN

Participant Name	Old Clause No	New Clause No	Comments
PLUS ES		ReasonForInter field	For completeness PLUS ES suggests an additional enumeration of ' Meter Inspection/Audit ' is available, as this may require an outage to a customer's supply. Whilst volumes of these instances are currently low, it still is a valid reason and they will begin to increase proportionally as meter fleets start maturing.
PLUS ES		EndDate Definition	For clarity, PLUS ES proposes additional wording to be added, following <i>...extended period</i> : This is used where the Initiator wants to advise the Recipient that they have a program of works which may go over an extended period or the last date of the proposed metering installation window.

Second Draft Report Question

Participant Name	Question No	Comments
