## 1. Context

This template is to assist stakeholders in giving feedback to the questions raised in the Second Draft Report about the proposed changes to the MSATS Standing Data, and to the second draft changes highlighted in **YELLOW** in the change marked versions of the different procedures and guidelines released in the second draft stage of consultation.

## 2. Questions raised in the MSATS Standing Data Review Second Draft Report

### 2.1 Material Issues

Information Category	Question No.	Question	Participant Comments
Metering Installation Transformer Information	1.	The proposed CT/VT fields values and validations, as listed above, are provided as examples to stimulate feedback from participants. AEMO notes some feedback that options are missing for CT Types, to allow for HV CTs and LV Special CTs. What is the list of values and validations that you need or want for the enumerated list for the various CT/VT fields? (In the absence of any such feedback, the list proposed by AEMO would provide the initial values for the CT/VT fields)?	TasNetworks have no proposed further additions for these enumerated lists.

### 3. Proposed Changes in MSATS Procedures – CATS

Please provide feedback to the the changes highlighted in yellow in the change marked version of the document

Section No/Field Name	Participant Comments
2.2 (r)	
2.2(s)	
2.3(r)	TasNetworks believe this should be in-line with other standing data and have an allowance of 5 business days to update.
2.3(s)	TasNetworks believe this should be in-line with other standing data and have an allowance of 5 business days to update.
2.3(t)	TasNetworks believe this should be in-line with other standing data and have an allowance of 5 business days to update.
