

NOTICE OF PROCESS FOR PROPOSED MINOR AMENDMENT

National Electricity Rules – Rule 7.17

B2B Procedures v3.6.1

Date of Notice: 25 March 2021

This Notice informs all Registered Participants, Metering Providers, Metering Data Providers, Embedded Network Managers, Ministers and the AER (Persons) that the IEC is conducting a minor amendment process in respect of the B2B Service Order Procedure v3.6.

This process is being conducted under 7.17 of the National Electricity Rules (**NER**).

Relevant Matter

The relevant matter is to correct Table 13 of the B2B Service Order (SO) Procedure v3.6. This requires amending the 'N' to 'O/N' for the CustomerNotificationEmail SO field, against the Install Meter, Remove Meter and Install Controlled Load Metering Service Works SOs. This allows the CustomerNotificationEmail to be consistent with the CustomerNotificationMethod and CustomerNotificationAddress fields.

The Information Exchange Committee (IEC) notes that there are no further changes proposed to the SO Procedure or the other B2B Procedures. The latter will be updated to ensure consistent numbering with the SO Procedure.

Please identify any parts of your submission that you wish to remain confidential, and explain why. AEMO may still publish that information if it does not consider it to be confidential, but will consult with you before doing so.

Please note that material identified as confidential may be given less weight in the decision-making process than material that is published.

Meetings

In your submission, you may request a meeting with AEMO to discuss the relevant matter, stating why you consider a meeting is necessary or desirable.

If appropriate, meetings may be held jointly with other persons. Subject to confidentiality restrictions, AEMO will generally make details of matters discussed at a meeting available to other persons, and may publish them.
