

## NOTICE OF PROCESS FOR PROPOSED MINOR AMENDMENT

National Electricity Rules – Rule 7.17

### B2B Procedures v3.6.2

Date of Notice: 14 May 2021

This Notice informs all Registered Participants, Metering Providers, Metering Data Providers, Embedded Network Managers, Ministers and the AER (Persons) that the IEC is conducting a minor amendment process in respect of the B2B Service Order Procedure v3.6.2

This process is being conducted under 7.17 of the National Electricity Rules (**NER**).

#### Relevant Matter

The relevant matter is to correct Table 13 of the B2B Service Order (SO) Procedure v3.6.1. This requires amending 'N' to 'O/N' for the PurposeOfRequest SO field against Metering Service Works Remove Meter and Metering Service Works Install Controlled Load SO types.

This allows for additional purposes of request, e.g. Site Abolishment or a request to install an Additional Meter.

The relevant matter also includes replacing the Figure 3: Proposed new Customer Service sequence for ACT with the updated NMI Allocation Process from EvoEnergy in the B2B Guide.

The Information Exchange Committee (IEC) notes that there are no further changes proposed to the SO Procedure or the other B2B Procedures. The latter will be updated to ensure consistent numbering with the SO Procedure.
