CONSULTATION – Second Stage

CONSULTATION PARTICIPANT RESPONSE TEMPLATE

Participant: PLUS ES

Completion Date: 1 Jun 22

Table of Contents

- 1. Service Order Process 3
- 2. One Way Notification Process 3
- 3. Technical Delivery Specification 4
- 4. B2B Guide v3.8 4
- 5. B2B Guide v3.7.1 5

1. Service Order Process

Old Clause No	New Clause No	Comments
	2.3.1(a)	<i>This clause applies to all metering installation types 1 to 4.</i> PLUS ES proposes that 4a metering installation types should be included in the above clause, for completeness. There are benefits for the other Service Provider (DB/MP) knowing that a metering installation or NMI connection point will be or is off supply, due to a request.
	Section 4.1 – Table 13 Notified Party	PLUS ES questions whether there is a use case for “O” status. If not, we propose that it is deleted.

2. One Way Notification Process

Old Clause No	New Clause No	Comments
	General	PLUS ES proposes a review of the additional content and consistent terminology throughout the document – Currently there are the following variations: Shared Fuse, SharedFuse Notification, SharedFuseNotification, Shared Fuse Notification
	4.2.6 (a)	PLUS ES proposes that everything after the 1 st sentence should be removed from the procedure. At best it is information that belongs in the B2B Guide.
	4.2.6 (a)	For completeness and consistency, PLUS ES proposes the following re-wording of the first sentence: The SharedFuseNotification allows the Initiator to provide new or amended Shared Fuse Arrangement information, relating to a connection point, to the Recipient.

3. Technical Delivery Specification

Old Clause No	New Clause No	Comments
	Section 2.11 – Table 1	<p>PLUS ES proposes the following amendments to align with terminology in the B2B OWN Procedure</p> <p>Business Document:</p> <p style="padding-left: 40px;">Current: SharedFuseArrangement</p> <p style="padding-left: 40px;">Amend to: SharedFuseNotification</p> <p>aseXML Transaction:</p> <p style="padding-left: 40px;">Current: ase:SharedFuseArrangement</p> <p style="padding-left: 40px;">Amend to: ase:SharedFuseNotification</p>

4. B2B Guide v3.8

Old Clause No	New Clause No	Comments
	General	A review to align the newly added content with the document's formatting.
	6.1.4(b)	<p>PLUS ES proposes that the following words are removed to make the clause more adaptable with changing practices/agreements, without impacting the intent of the clause.</p> <ul style="list-style-type: none"> • At the metering installation – Remote Services: delete Remote Services • At the NMI connection point – Physical Services: delete Physical Services
	6.5.1.6 (b)	<p>PLUS ES proposes the following sentence to be added just before the sentence commencing 'Typically...'</p> <p>Suggested wording:</p> <p>To drive a standard and efficient practice, ideally the Participant identifying the Shared Fuse Arrangement should be providing the information directly to the LNSP.</p>

5. B2B Guide v3.7.1

Old Clause No	New Clause No	Comments
	6.5.1.6 (b)	PLUS ES suggests for completeness that the clause clarifies that it is used to provide new or amended Shared Fuse Arrangements.
	6.5.1.6 (c)	PLUS ES suggest for the end user's convenience to reference section 7.3.6 for the CSV Template. The CSV template has been mentioned but there is no visibility in this section of the document where it is available. i.e. For the CSV template, please refer to section 7.3.6.
	7.3.6	PLUS ES suggest since there is no other content and the CSV will be deleted when the B2B OWN transaction is available, there is no requirement for a sub section; hence remove 7.3.6.1.
