## Notice of proposal for minor rules consultation procedure

AEMO proposes to make minor or administrative changes to the Inter-Network Test Guidelines under the National Electricity Rules (NER) 5.7.7(k), in accordance with the minor rules consultation procedure under NER 8.9.4.

AEMO has published, with this notice, its proposed amendments to the Inter-Network Test Guidelines in marked-up form, intended to take effect on 31 Aug 2023. All documents for this consultation will be published on AEMO's website at <https://aemo.com.au/en/consultations/current-and-closed-consultations/inter-network-test-guidelines-update>.

The reasons for making the proposed amendments are to improve the description, and clarify the respective roles, of the Inter-network Test Reference Committee, the Executive Joint Planning Committee and the Executive System Integration Steering Committee in the inter-network testing process.

AEMO considers that the proposed amendments are of a minor or administrative nature because they:

- Are limited to the governance of inter-network test planning and implementation processes, and do not affect the inter-network testing requirements or approach.
- Align these governance provisions of the guidelines with current practice.

### Consultation notice

In accordance with NER 8.9.4(a)(3), AEMO invites comments on the proposed amendments from any interested person within 10 business days after publication of this notice, that is, by 5:00 pm (Melbourne time) on 15 August 2023.

Before submitting comments, please read and take note of AEMO's consultation submission guidelines, which can be found at <https://aemo.com.au/consultations>. Subject to those guidelines, any comments received will be published on AEMO's website. AEMO is not obliged to consider comments received after the closing date.
