

Weekly Market Report

Dylan Gaunt – Analyst, WA Market Operations

Weekly Market Report

- The Weekly Market Report provides Market Participants and the public a summary of information for each Trading Week, including:
 - Temperature, Actual Load, and Forecast Load
 - Total Participant Supply and Aggregate Bilateral Contract Positions
 - Estimated Net Balancing Market Trades
 - Total Traded Energy
 - STEM and Balancing Comparison
- The report is currently produced by WA Market Operations and published manually on the Weekly market report website¹.

Weekly Market Report (PDF)

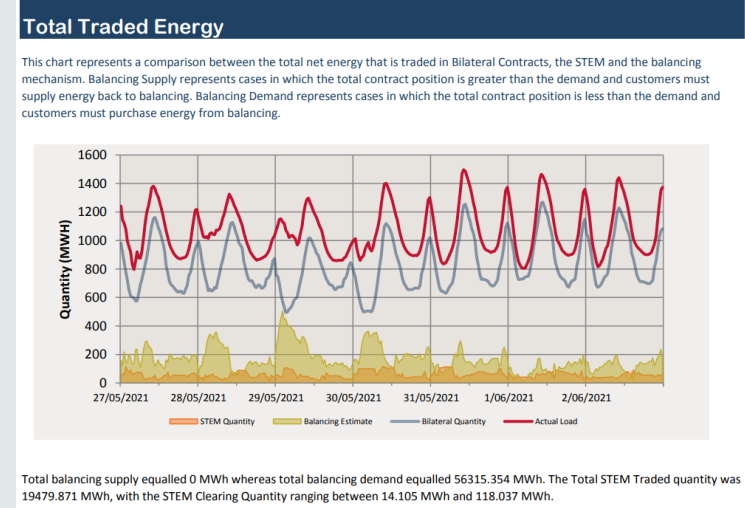

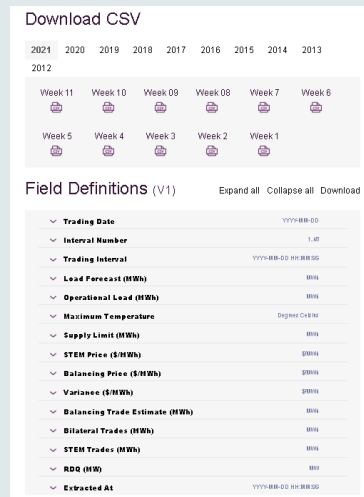

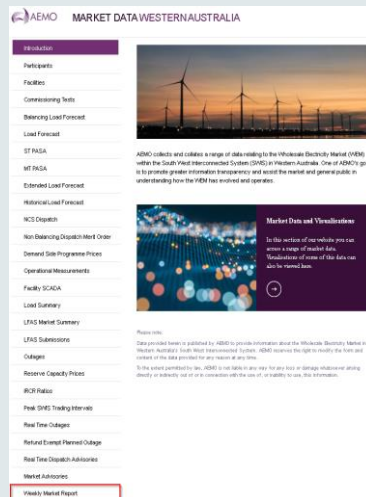

Publication Improvements

Data file (CSV)

- Will no longer be published on the Weekly market report website¹.
- From 16 June 2021, will be automatically published on WA Market Data² with data regenerated from Balancing Market Commencement (1 July 2012).

Visualisations (PDF)

- Will no longer be published on the Weekly market report website¹.
- A WEM Data Dashboard visualisation is in the development pipeline. In the interim, the dataset can be used to recreate the visualisations.
