

MEETING RECORD

MEETING:	WA Electricity Consultative Forum (WAECF)
DATE:	Wednesday, 12 October 2022
TIME:	1:00 PM (AWST)
LOCATION:	Microsoft Teams
CONTACT:	WAelectricityforum@aemo.com.au

ATTENDEES:

1. Welcome and Previous meeting minutes

Teresa Smit (AEMO) opened the meeting at 1.02 pm; the minutes from the previous WAECF (24 August 2022) were endorsed. AEMO to publish the minutes as final on the <u>website</u> (Action Item 1.1).

2. AEMO Operational Updates

2.1. Power System Update

Michael Dalton (AEMO) presented a power system update with a focus on summer readiness, discussing the current state of system versus demand in the system, managing system security and outages.

Questions and feedback to be directed to <u>wa.sm.operations@aemo.com.au</u>

2.2. Reserve Capacity update

Neetika Kapani (AEMO) presented an update on Reserve Capacity activities noting:

- AEMO issued a tender for Supplementary Reserve Capacity (SRC) on 23 September 2022. The invitation to tender closes on 21 October 2022.
- AEMO will host a Certified Reserve Capacity (CRC) workshop on 20 October 2022.
- The Consumption Deviation Applications (CDA) deadline is 31 October 2022.

Questions and feedback can be directed to <u>wa.capacity@aemo.com.au</u>

2.3. Quarterly Energy Dynamics (QED) Report

Danielle Bestall (AEMO) presented some key insights from the Q3 QED report that will be published on 27 October 2022, noting:

- A new minimum operational demand record and a new maximum DPV generation output record.
- Four-year high weighted average Balancing Price and weighted average Short-Term Electricity Market (STEM) Price.
- A large decrease in coal-fired generation, mainly driven by a reduction in Facility availability. As a result, gas-fired generation significantly increased.
- Increase in gas production and gas demand for electricity generation.

Any feedback and suggestions can be sent the wa.operations@aemo.com.au

3. AEMO Project Update

3.1. WEM Reform update

Andrew Smith (AEMO) provided a WEM Reform program status update, noting that program status has deteriorated to 'red' as ongoing increases in estimates of effort required to complete the program are forecast to consume available schedule and budget contingency. AEMO is developing a recovery plan to reduce cost and time required, including prioritisation of essential scope. AEMO remains committed to commencing Market Trial in April 2023, to enable new market start on 1 October 2023.

More information and any feedback can be provided to <u>WA.ETS@aemo.com.au</u>

3.2. WA DER Roadmap Update

Tom Butler (AEMO) provided an update on the WA DER roadmap, the next DER market participation forum is scheduled for 13 December 2022.

More information and any feedback can be provided to WADERProgram@aemo.com.au. All DER previous presentations can be found on <u>AEMO's website</u>.

4. Other Business

The chair noted AEMO will be holding a Capacity providers forum on 19 October 2022. All operational managers are encouraged to attend.

5. Next Meeting

Teresa Smit (AEMO) informed participants that the date for the next WAECF is scheduled for 7 December 2022. The meeting was closed at 1.41 pm.

Disclaimer - This document provides an overview of the main points of discussion at an industry forum convened by AEMO on 12 October 2022 to provide information and invite perspectives and feedback on matters relating to WA Electricity Consultative Forum (WAECF). Readers, please note that:

- This document is a summary only and is not a complete record of discussion at the forum.
- For presentation purposes, some points have been grouped together by theme and do not necessarily appear in the order they were discussed.
- The views expressed at the forum and reflected here are not necessarily those of AEMO.
