

APCWG Meeting 7 April 2020 - Summary of proposed Market Procedure changes

- **Market Procedure: Facility Registration, De-Registration and Transfer**

The proposed amendments correct minor referencing errors, update formatting and include administrative changes in section 1 to align with AEMO's latest Market Procedure template.

- **Market Procedure: Reserve Capacity Testing**

The proposed amendments are intended to:

- Align the Market Procedure with the current version of the WEM Rules. In particular, align the assessment of Reserve Capacity Tests results with the rule requirements as set out in section 5.2 of the Market Procedure.
- Improve clarity of the Market Procedure by restructuring the procedure according to the Reserve Capacity testing timeline as set out in sections 3, 4, and 5 of the Market Procedure.
- Reflect AEMO's latest Market Procedure template (including formatting, contents, and procedure administration steps in section 1).

SUMMARY OF PROPOSED CHANGES TO THE MARKET PROCEDURES
